

There have been changes to the way pseudo cases/pseudo country codes (such as S4, B2, B7, E5 etc.) are downloaded from the SAN, Imported, and Displayed in TMS and SCO-Tweb.

Change #1: Only One STL to Download:

The first change you will notice is that there will no longer be a separate STL download for pseudo country codes (i.e. S4, B2, B7 E5 etc.). All pseudo cases will be downloaded and imported into TMS with the main Country STL. Unless you manage multiple countries, you should only have one STL to download and import. (For example: Training for Italy under pseudo country code S4 will automatically be included inside the IT.exe STL file. [You will not have to download S4.exe STL.]

Change #2: Pseudo Cases Will Contain Only Your Country's Data:

Pseudo Cases will now only contain training assigned to your country. For example, S4 is a pseudo country code that is used by many different countries. In the past, after importing the S4 STL into TMS, one could see training lines for all countries that had training programmed under S4. Now, only training that is programmed for your country under S4 will be displayed in your TMS. You will not see training belonging to other countries.

Change #3: ITO Number:

The ITO number will be slightly different for pseudo cases programmed under pseudo country codes. ITOs that are created for pseudo cases will have the 2 character main country code at the beginning of the ITO Number and the 2 character pseudo country code at the end of the ITO Number.

(i.e. ITO#: **IT**PTEY0012000**S4**)

Change #4: Viewing Pseudo Cases in TMS:

To view training data in TMS for a pseudo case (i.e. Pseudo Cases programmed under Pseudo Country Codes such as S4, B2, B7 etc.), use the following criteria when pulling up the data:

- Country Code Criteria: Use your main country code, not the old pseudo code. (i.e. for Italy use IT for the Country Code criteria, not S4.)

- Case ID and Case Line: Use the Case ID and Case Line that is programmed for the training. Nothing has changed here.

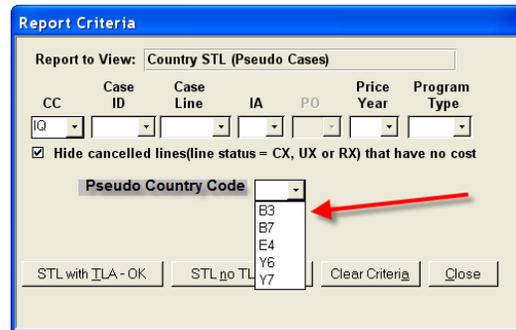

(See screenshots on next page.)

1. If you are unsure if you have any Pseudo Country Codes/Cases, use the new “Cntry STL (Pseudo Cases)” report.

Import your Country STL.
 Then, from TMS Main Menu:
 Click, Reports
 Select, Single Country
 Click, “Cntry STL (Pseudo Cases)”

On the Criteria screen that appears, the Pseudo Country Codes for your country will be displayed in the “Pseudo Country Code” dropdown box. Use the dropdown box and any other criteria to print out a report of training in the Pseudo Case. (Leave Case ID blank and the report will show you all Cases and training that is programmed for the Pseudo Country Code that you selected.)

2. Below are example screenshots illustrating how to pull up the *Student Data List* in TMS that is programmed for:

Italy, Country Code: IT
Pseudo Country Code: S4
Case ID: TEY
Case Line: 001

From TMS Main Menu:

Click, Student Information and Forms

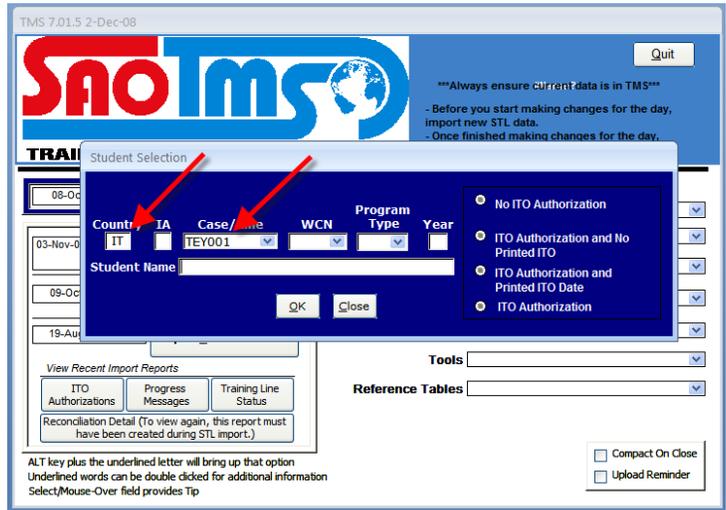

Select, Student Data

In Student Selection criteria form enter:

Country: IT

Case/Line: TEY001

(Note: IT is used for Country, Not S4)

Resulting Student List window

WCN	CC	Pseudo CC	FY	Case	(Legacy Case)	IA	Program Type	Name	ITO Number	ITO Issued	Line Authorization
▶ 8000	IT	S4		TEY 001			P F	3/3/3/, 2/2/2/	ITPTEY0012000S4		0 of 1
8900	IT	S4		TEY 001			P F	GENTA, MARCO	ITPTEY0018900S4	03-Apr-08	3 of 5
8901	IT	S4		TEY 001			P F	MAURELLI, LUCA	ITPTEY0018901S4	03-Apr-08	3 of 4
8902	IT	S4		TEY 001			P F	LONGO, ROSARIO AGATINO	ITPTEY0018902S4	07-Apr-08	3 of 4
8903	IT	S4		TEY 001			P F	DRUELLA, MICHELE	ITPTEY0018903S4	08-Apr-08	3 of 4
8904	IT	S4		TEY 001			P F	RUGGERI, CHRISTIAN	ITPTEY0018904S4	08-Apr-08	3 of 4
8905	IT	S4		TEY 001			P F	BARBARA, LUCA	ITPTEY0018905S4	08-Apr-08	3 of 4
8906	IT	S4		TEY 001			P F	BASSETTA, ANDREA	ITPTEY0018906S4	12-May-08	3 of 4
8907	IT	S4		TEY 001			P F	AQUILANTI, DIEGO	ITPTEY0018907S4	12-May-08	3 of 4
8908	IT	S4		TEY 001			P F	RUSSO, ANTONIO	ITPTEY0018908S4	12-May-08	3 of 4

When the ITO is pulled up, this is how it will be formatted for Pseudo Country Codes.

- (This only affects new ITOs, not ones that have already been created.)
